

RBConsult

Seasoned independent expert
in CAPEX and cement
engineering

Technological developments in
the cement industry request
constant innovative thinking,
not only in process but also in
environmental performance.

RBConsult was created in
Switzerland, by Robert BUESS,
who graduated from the Swiss
Federal Institute of Technology.
He is one of the most
experienced consultant
engineers within the cement
world. RBConsult excellence is
based on the decades of
international experience. The
company offers its engineering,
industrial consultancy, and
management services
worldwide to the cement,
mining and construction
materials industries. For all
projects, from feasibility
studies to commissioning,
RBConsult guarantees services
with the highest level of quality
and accuracy in line with the
hallmark of its home country.
